# How Secure is Your Password?

Take the Password Test

**Tip:** Avoid the use of dictionary words or common names, and avoid using any personal information

Show password: ☒

**ilovechocolate1234**

Very Weak

18 characters containing: Lower case Upper case Numbers Symbols

Time to crack your password:  
**24.52 seconds**

**Review:** Oh dear, using that password is like leaving your front door wide open. Your password is very weak because it contains 2 dictionary words and 2 common passwords.

Your passwords are never stored. Even if they were, we have no idea who you are!

Do you want to find out more about password best practices, cyber risks, and the most common mistake people do when creating password?
